

DIAGRAM FOR NON-STANDARD PALLET

NOTE: This is a non-standard size pallet. The dimensions are critical for our warehouse and must be strictly adhered to. (see pg.)

Wt. Limit: 1000 lbs.

Load Height: Load shall not exceed 4ft. above top of pallet.
(Neither weight nor height limits shall be exceeded.)

Pallets (not skids) shall be used for all orders in excess of 500 lbs.

(The above diagram is not to scale and is for illustration only.)

Pallets are designed for use with a manual or powered hand truck as illustrated below:
